

Sliding Into The Future of Video Rentals

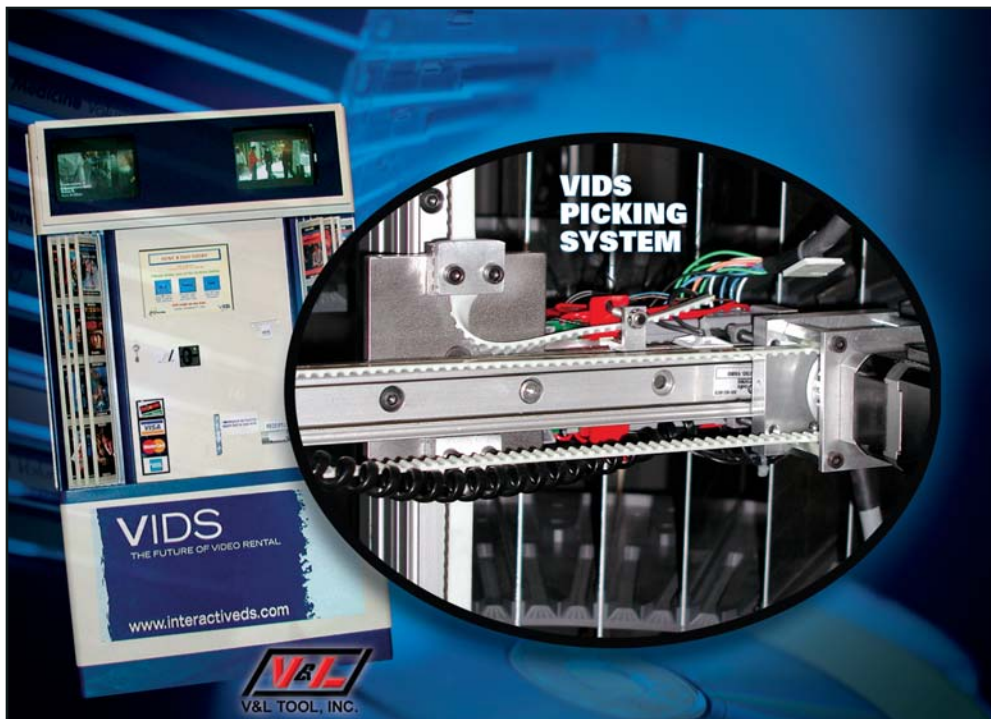

Problem: V & L Inc's time saving video rental machines required a compact, high speed linear guide system for DVD retrieval and return.

Solution: PBC Linear recommended their proven Redi-Rail® linear guides. With their patented side adjustable pre-load carriage, high speed and cam roller precision, Redi-Rail ensured long-lasting smooth and quiet linear guidance.

Results: Driven by state-of-the-art electronics, Redi-Rail provided fast and accurate travel for the life of the VIDS Video Picking System.
