## Golden Mousetrap Award for New Integral V™!

**August 22, 2008 Rockford, IL** - - -PBC Linear's new Integral V technology has been named a *Design News* Golden Mousetrap finalist for the 2008 Best Product category. After receiving a record number of entries, *Design News* selected the cost-efficient IVT linear guide system as a stand-out product. The finalists and official winner will be formally announced in the September 22<sup>nd</sup> issue of *Design News*.

Introduced this year, Integral V technology has already gained much enthusiasm as a revolutionary new product. By eliminating the need for fastening components, Integral V dramatically lowers cost while maintaining quality. The technology is easy to install, and completely customizable to meet the needs of a multitude of different applications in a wide range of industries.

*Design News'* engineering awards—though revamped and renamed to the Golden Mousetrap Awards in 2006—have been recognizing new, innovative, products for over 20 years! This year, ingenuity was awarded in four categories: motion control/automation, electronics, hardware/software, and materials/assembly. Editor-in-chief, John Dodge, states "Our Golden Mousetrap Awards give
